Membership Classification

Active Members

A business, located in Kansas, that (a) is actively engaged in the wholesale or retail nursery business which derives a majority of its revenues from the sale of horticultural products and materials related thereto or (b) has a separate division or department actively engaged in the wholesale or retail nursery business which division or department derives a majority of its revenues from the sale of horticultural products and materials related thereto.

Associate Members

Nurseries whose place of business is not in Kansas and persons or entities engaged in allied trades, such as horticultural printers, publishers of trade papers, dealers in nursery supplies, manufacturers of agricultural implements and landscape architects, employees of private and/or governmental institutions whose duties are of a horticultural nature, students and employees of Active Members may become Associate Members of the Association.

The term "nursery business", as used in this Article, refers to the production, distribution, or planting of or landscaping with plant materials, including but not limited to, trees, shrubs, vines, and other plants having a persistent woody stem or stems, and all herbaceous annuals, biennials, or perennials, generally used for outdoor or indoor plant. Members shall designate one of its employees to represent the company.
